Florian Schulz Collection

PRESERVING TRADITION.

Proudly continuing the classics of the Florian Schulz Collection.

He was devoted to providing mass customization for commercial construction projects such as the Stuttgart State Opera House and the iconic Breuninger fashion store.

Florian Schulz increasingly concentrated more on the design of interior lighting made from brass. Later these series of lights were produced by a select team of professional craftsmen in his factory in Ludwigsburg.

Over the years Florian Schulz continued to develop a diverse and timeless collection of lights that can be placed in all areas of residential interior.

The ability to work with brass and the aspiration to make timeless and functional lights were his motivating and inspiring factors to make the best possible lighting for residential spaces. Florian Schulz has claimed a unique collection of highest artistic craftsmanship with timeless design combined with modern technology.

CRAFTMANSHIP MEETS PERFECTION.

Jens Schump combines design, technology and quality at the highest level.

The company Florian Schulz GmbH has been managed by Jens Schump since 2019 and renamed to VS Manufaktur e.K. Jens Schump initially learned his craftsmanship as a metal former (focus on metal typography) from Florian Schulz and worked together with him for 14 years. During that time Jens Schump developed his in-depth knowledge of the inner workings of high quality lighting. Jens Schump (36) has advanced from an initial apprentice under the guidance of Florian Schulz, then as the operational director to now the proprietary owner of VS Manufaktur. As Managing Director, he has assumed responsibility of all personnel of Florian Schulz and has continued to expand the team of qualified employees.

Jens Schump's vision is to guarantee design, level of quality and durability. The lighting features have been updated specifically regarding quality and functionality and adapted to meet current technical standards, such as the ability to connect with KNX and Smart Home systems. Every light is unique and offers modern and qualitative technical functionality.

Production of all the lights occurs in southern Germany with experienced craftsmanship – made in Germany. Jens Schump personally also continues to design new lights, even as Managing Director. He retains the design concept of Florian Schulz and enhances new collections with his signature of precision and aesthetics implemented with sustainability.

Prices for non-standard finishes

In addition to the metal finishes quoted in this price list, special finishes are available for most models.

Surcharges are calculated from the basic price for brass (– Ms) or nickel (–Ni): *

Mp	Solid brass polished, unlacquered	+ 10%
Ni-lack	Solid brass nickel-plated, lacquered	+ 10%

Delivery times on request.

* Prices can vary depending on model and technical feasibility.

Note:

The special surfaces „Mp – Solid brass polished, unlacquered“ and „Ni-lack – Solid brass, nickel-plated, lacquered“ visually look the same, such as „Ms – Solid brass polished, lacquered“ and „Ni – Solid brass, nickel-plated“.
